

VMA 2008 Conference Announcement

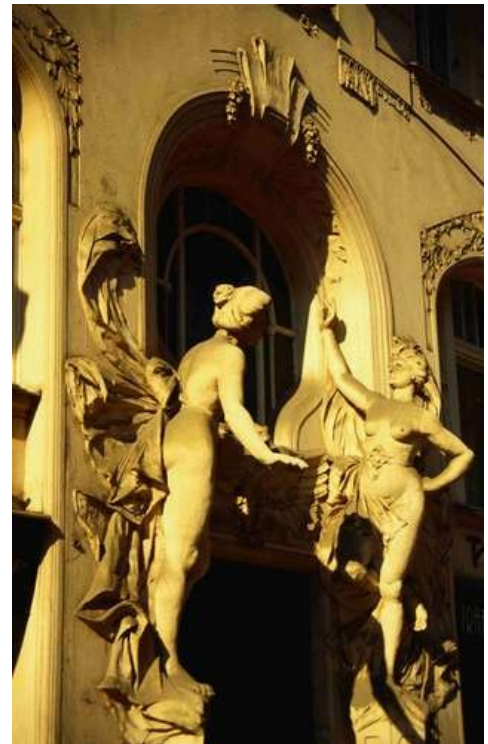

Hosted by

Telefonica

O₂

20—22 October 2008

Prague, Czech Republic

Join us in Prague in October for our 33rd conference

Hosted by Telefonica O2 in the historical city of Prague, our conference will start on Sunday evening with a welcome drink. However, participants are welcome to join us earlier in the afternoon for a cultural visit of Prague.

The participants of our 2.5 day Event will as usual consist of global representation from operators and service providers who come and share their experience with the audience. This year will also feature initiatives around innovation as well as a focus group to assess the interest and behaviour of the 6-12 year old segment.

Highlights covered in the agenda this year:

- Usability and various services for impaired users
- Evolution of some of the legacy services within next generation networks
- Privacy and Security featuring the research activity of T-Labs

Key figures from 2007 conference where we celebrated our 20th anniversary

Hosted in Andorra by:

106 participants

■ Operators ■ Vendors ■ Consultants
